Education

TROY UNIVERSITY   Troy, AL
B.Sc. Computer Science. [*Completed 24 credits towards a B.Sc. in Computer Science*]   2018 - 2019

UNIVERSITY OF LAGOS   Lagos, Nigeria
B.Sc. Computer Engineering. [*Completed 110 credits towards a B.Sc. in Computer Engineering*]   2012 – 2016

Self-Taught Developer: YouTube, Udemy, Coursera, CS50, Udacity.

Technologies: *HTML, CSS, SASS, JavaScript, React, Express, NodeJS, MongoDB, Python, WordPress, Git.*

Projects & Languages

YELPCAMP: https://quiet-escarpment-20816.herokuapp.com
A Full stack JavaScript application that uses ***Express, NodeJS, MongoDB and EJS*** to create a Review website for Campgrounds with full CRUD capability. This includes user authentication, register, login, active location mapping using ***MapBox*** and image optimization using ***Cloudinary***.

ECOMMERCE: https://github.com/Davidxcr/BeyondFit
A Full stack React application that uses **React,** ***Express, NodeJS and MongoDB*** to create an ecommerce website with User login, admin panel, product management, uses **JWT** for authentication and uses ***Stripe*** for payment processing.

REACT ADMIN DASHBOARD: https://adash.netlify.app/
A React Admin Panel user interface created using **Material UI, React JS, and SASS**, used **RechartJS** to create charts and employs **Context API** for Dark Mode features. This application was also deployed using **Netlify**. I plan to integrate this into the E-Commerce project in the future.

Experience

GOLDMAN SACHS   Chicago IL
Onsite Desktop Support and Technician   April 2021 - Present
- Providing onsite desktop support to users by fixing, installing, and maintaining computer and phone equipment for over 650 employees.
